WHOLESALE CONDITIONS

The minimum wholesale order quantity is 4 kg total. We guarantee appropriately fresh roasted coffee across our wholesale range; however, only orders of 4 kg or more per individual coffee are roasted specifically to order for that customer.

Example: If a customer orders 5 different coffees and 2 of those coffees are ordered in quantities of 4 kg each, those two coffees will be roasted to order and will therefore share the same roast date. If the customer also orders 3 additional coffees in smaller quantities, for example 1 kg each, the roast dates of those coffees may differ from the roast dates of the coffees ordered in 4 kg quantities.

SHIPMENT COSTS

We offer free shipping cost of order of 50kg+.
